Macro with Flash &
Bracketing, Exposure or Focus

November 8th, 2018

You are going to hear information as
I understand it, you might ask
another person and get a slightly
different take on things.

THERE IS NO SUBSTITUTE FOR PRACTICE.

THERE IS NO SUBSTITUTE FOR PRACTICE.

Macro Photography with Flash

- * Use which ever lens you have that is best suited for Close Up*
- * Camera in Manual Mode*
- * Set ISO low, around 100*
- * Set Aperture around f-11*
- * Set your Shutter at your highest flash sync speed ~ 1/250*
- * The clubs flashes will be difficult to use for this.*
- * A dedicated flash with ext. cord is best*
