May 2020 Newsletter

www.svcameraclub.com

Feeling up for a challenge?

Hopefully while you've been sheltering at home, you've still had the opportunity to get out and shoot. Maybe you are stretching your macro photography skills, or experimenting with lighting in the house or yard. Perhaps you dove into some of the web articles posted last month to keep you busy and keep your photography skills sharp during these crazy times.

It looks like we won't have a May meeting as we'll still be under Governor Ducey's stay-at-home orders. To plan for, and look ahead to June, let's get creative with some themed shooting. In the panel normally housing the Tips and Tricks, you'll find a list of topics. Be literal, or stretch the topic. Shoot one or shoot them all. Bring your images to the June meeting and be prepared to share the stories behind your topic images.

Photo Challenge Topics

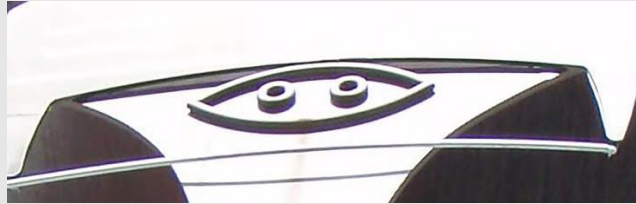

Be literal or be creative. Choose one, some, or all of the topics and bring your photos to the next meeting. Have fun!

- Red
- In the Kitchen
- Out my window
- Those elusive paper products
- Lonely
- Numbers
- Pets

Mystery Photo of the Month - repeat

Submitted by: **Val Sleger**

Hint: Now that the photo is oriented differently, perhaps you recognize it? The city where it can be found is famous for a repeat three-peat.

Joyce Genske suggested the idea of challenge themes and sent along a photo staged by her, and photographed by Ande Savage, to kick things off. The theme for Ande's photo was "toilet paper." Look away if you are easily frightened.

A big thanks to **Mark Hanna** for getting the web site back up and running!

When they reopen, be sure to stop down to the Friends of the Library Bookstore, 2243 E. Fry, and have a look at the photo wall, featuring work by Sierra Vista Camera Club members.
